OBJECTIVE	Seeking an internship position in software engineering or cybersecurity utilizing my hard work and drive for success.
EDUCATION	**Bachelor of Science in Computer Science** Clemson University, Clemson, South Carolina Minor: Cybersecurity | In Progress

EXPERIENCE

Clemson University Mobile Development Team
Clemson, South Carolina
Alexa Skills Intern   Upcoming/Spring 2019
- I have been hired on to the Clemson University mobile development team starting in January of 2019 to help develop a set of custom Alexa Skills for the university.

Clemson Cybersecurity Operations Center
Clemson, South Carolina
Intern   Fall 2018
- Monitored Clemson University's large network for multiple types of threats.
- Used the Splunk software to manage machine data and respond to alerts.
- Opened tickets and oversaw that they were managed timely and effectively.
- Reverse-engineered malware to deduce information about it.

Upstate Karate
Simpsonville, South Carolina
Children and Teenage Level Instructor   Fall 2012-Fall 2018
- Taught children and teens the art of Kempo Karate.
- Coached and motivated younger instructors on how to meet expectations and excel in their positions.
- Handled client problems professionally.

SKILLS/AWARDS

- Experienced in programming languages: C, C++, Java, and Python.
- Experienced with version control (Git).
- Experienced with MacOS, Windows, and Linux operating systems.
- Familiarity with Splunk, Zeek (Bro), and other security programs.
- First place at HackGSU for "Best use of Network or Integrated Devices".
- Adaptability, teamwork, and communication are some of my strongest skills.
